

Jarold Direcional

	Safety cages available for low ceilings.
	Suitable for Damp Location **
	Compatible with Downrod Light Canopy
	U.S.A. Components and Labor

The blades of the Jarold Direcional ceiling fan can be infinitely positioned in a 180-degree arc to provide maximum, directional airflow. The Jarold can be hung in small, awkward spaces or in front of HVAC ducts to make more efficient the heating, ventilation or air conditioning of any room. The Jarold is available in polished chrome, brushed nickel, polished copper, bronze or black. White, brushed copper, polished brass, brushed brass, black nickel and bronzette are available as special orders. Bronzette, incidentally, is our monochromatic powder-coated bronze finish.

- Constructed of cast aluminum, heavy spun and stamped steel, the Jarold carries a limited lifetime warranty.
- Each unique motor mount and fan head knob is made of genuine marbleized Bakelite.
- The Jarold is available with the following blade options:
 - metal blades with decorative metal blade guards
 - solid, ecologically harvested mahogany blades without blade guards
 - metal blades with metal safety cages for use in low ceiling applications (7 ft in US / 8.2 ft in Canada)

Standard Finishes

bronze	brushed nickel	black
polished chrome	polished copper	

Special Order Finishes
